01

100% Bio-degradable

Greet-Pura Natura is not only recyclable, but also compostable.

polluted: to bio waste

not polluted: to wastepaper

02

100% Recyclable

Greet Fruit and vegetable bags are completely and easily recyclable, therefore a 100% recyclable material.

03

100% Monomaterial

Greet - is made of paper for easy recycling.

04

Lightweight

Saving resources by reducing weight. The low thickness and the special lightness ensure significant savings of the raw material and a reduction in storage space. Also shorter recycling and composting phase.

05

100% Cellulose

Purely vegetable-based for simple recycling. The bags are made of 100% fresh fibre paper with FSC-certification, which guarantees the sustainable management of forests.

06

Food-safe

Greet-Pura Natura is certified for direct contact with food.

07

Breathable

Products stay fresh longer.

08

Moisture resistant

Also wet or moist fruits and vegetable can be put in the bag.

Due to the paper structure and the special bottom, the Greet fruit and vegetable bag is particularly strong and offers plenty of space.
